

Dear Parents,

We are looking forward to seeing your child/children at school on Monday, November 29, 2021. The school has been deep cleaned and we are following all the Covid 19 protocols outlined by Public Health.

If your child travels on the bus please encourage them to sit with a family member if they have one to sit with. They must wear a mask on the bus at all times and once seated, there will be no changing seats. Thank you for your support with this.

To ensure your child's safe return to school it is suggested that they do a rapid test on Friday and again on Monday morning. If they test positive please call 811 to book a PCR test and follow Public Health's directives. We really appreciate all your support, understanding and cooperation you have shown us during these tough times.
